No. 28422.

DUBLIN CASTLE,

19th November, 1919.

Sir,

I have to acknowledge the receipt of your letter of the 17th instant, forwarding, for submission to His Excellency the Lord Lieutenant, the Sixty-first Annual Report of the Board of Superintendence of the Dublin Hospitals, with Appendices, for the Year 1918-1919.

I am, Sir,

Your obedient Servant,

J. J. TAYLOR.

Trevor N. Smith, Esq., F.R.C.S.I.,  
Secretary to the Board of Superintendence  
of the Dublin Hospitals

SIXTY-FIRST ANNUAL REPORT  
OF THE  
BOARD OF SUPERINTENDENCE  
OF THE  
DUBLIN HOSPITALS,  
WITH  
APPENDICES FOR THE YEAR 1918-19.

TO HIS EXCELLENCY THE RIGHT HON. FIELD-MARSHAL VISCOUNT FRENCH, K.P., G.C.B., &c.  
*Lord-Lieutenant General and General Governor of Ireland.*

OFFICE OF BOARD OF SUPERINTENDENCE  
DUBLIN HOSPITALS,  
22 CASTLE STREET,

DUBLIN, 11th November, 1919.

MAY IT PLEASE YOUR EXCELLENCY :

We, the Board of Superintendence of the City of Dublin Hospitals, have the honour to submit to Your Excellency this our Sixty-first Annual Report under Statute 19 & 20 Vict., cap. 110, passed on the 29th July, 1856, entitled Dublin Hospitals Regulation Act

During the year ending 31st March, 1919, we inspected all the Hospitals which receive grants from Parliament.

Viz. :

1. Westmoreland Lock Hospital.
2. Steevens' Hospital.
3. Meath Hospital and County Dublin Infirmary.
4. Cork Street Fever Hospital.
5. The House of Industry Hospitals, viz. :—
  - (a) Hardwicke Fever Hospital.
  - (b) Whitworth Medical Hospital.
  - (c) Richmond Surgical Hospital.
6. Rotunda Lying-in Hospital.
7. Coombe Lying-in Hospital.
8. The Royal Victoria Eye and Ear Hospital; and
9. Royal Hospital for Incurables, which receives a portion of the Concordatum Fund.

On these occasions we carefully observed and inquired into

the state and condition of each institution to ascertain that the wards were clean and well ventilated, that every provision was made for the treatment, comfort, and welfare of the patients, and that the several buildings were kept in good repair and in a sanitary condition. We made inquiries respecting the current expenses of each hospital and the system of purchasing, storing, cooking and issuing supplies; we looked into the nursing arrangements, and into the means available in each hospital for the extinction of an outbreak of fire, and for the escape of the inmates in the event of such an occurrence, and in fact, into all such matters as might assist us in supervising these hospitals, and in reporting thereon in accordance with the provisions of the 18th section of the Act of 19 & 20 Vict., cap. 110.

In the Appendix are tables giving the following particulars for each hospital during the year:—Table No. 1 is a Classified Return of the Diseases of Patients. No. 2 shows the number of Patients treated; the mortality; the average daily number in hospital, and the present extent of accommodation for each class of patients. No. 3 shows the several sources of income. No. 4 the several chief heads of expenditure. No. 5 the average cost per bed for maintenance and for establishment and for both combined, but exclusive of buildings and furniture. No. 6 gives the price of articles supplied per contract. No. 7 gives the attendances of each member of the Board of Governors at the several meetings.

A study of these tables, taken in conjunction with what we ourselves have observed, enables us to report that the hospitals under the Superintendence of this Board fulfil in an economical and thorough way the objects for which they were intended, and yet, that their efficiency is threatened owing to a failure of funds. The cause and extent of this failure we herewith submit to Your Excellency.

#### The House of Industry Hospitals, viz. :

- (a) Hardwicke Fever Hospital.
- (b) Whitworth Medical Hospital.
- (c) Richmond Surgical Hospital.

These hospitals continue to do a vast amount of good work, and at our inspection we found every department in excellent working order. Their efficiency both as charitable and teaching institutions goes on increasing. The evidence presented to us of very careful attention bestowed on the smallest details in the wards spoke well for the efficiency of the probationers and nurses, and so for all concerned with their teaching. Of course the contrast between the antiquated wards of the Hardwicke and Whitworth Hospitals, together with the shortcomings of the Out-patient Department continue to strike one

on passing to them from the Richmond Hospital, spic and span, and in every way up-to-date.

The following improvements were carried out during the year :—

A ward of fifteen beds was equipped and opened for the reception of Discharged Soldiers at a cost of £300.

Continual complaints having been received from the Medical Staff with regard to the size, heating and ventilation of the small Operating Theatre, the Governors decided to have it entirely remodelled; this has now been completed at a cost of £484, of which the Chairman collected £208.

The bank overdraft is £10,874.

---

#### STEEVENS' HOSPITAL.

This hospital, in construction delightfully old-fashioned, is in all essential requirements abreast of the times. We found at our inspection every part of it in good order. The condition of the wards, the quality of the supplies, and the manner in which they are all stored, the cooking, the laundry, &c., called for praise.

Some years ago we called attention to the fact that it is the only hospital turning out nurses trained both in general nursing and midwifery, and thus fully qualified to work in rural districts. Later on we were struck by finding the open-air treatment of patients in operation and achieving excellent results. Now we have to announce that in it, in full working order, and attracting an almost daily increasing number of patients and students, there is a centre for the free diagnosis and treatment of venereal disease. A real want, long calling for attention in Dublin, has thus been supplied. The Board of Governors and the Medical Staff are to be congratulated on their enterprise.

The bank overdraft is £5,924.

---

#### THE WESTMORELAND LOCK HOSPITAL.

On inspection we found this hospital being ably conducted. The wards, passages and basement were scrupulously clean and well ventilated. The bedding and the clothing of the patients were in a satisfactory condition. The scale of dietary is ample, and the various articles of food, including bread, meat, milk, butter, &c., which we examined were found, without exception, of good quality. The cooking is satisfactorily carried out, as is also the washing of soiled clothes. The patients, on being questioned, expressed themselves as well pleased with the way they were looked after, and they looked contented.

## 6 Sixty-first Report of the Board of Dublin Hospitals.

*Disposal of Patients, 1918 and 1919*—5 sent to other hospitals; 18 to Magdalen Asylums; 41 to friends; 8 to Workhouses; 2 expelled for insubordination; 1 delivered; 2 died; 18 left contrary to medical advice.

We note the falling off in the number of intern patients under treatment in the hospital. It was reported that it had fallen to 15 adult patients and one child.

This is the only hospital not in debt.

---

### THE ROTUNDA LYING-IN HOSPITAL.

This institution continues worthy of its world-wide pre-eminence as a lying-in hospital. Methodical cleanliness reigns here as naturally as does a routine of dirt in the slums from which many of the patients come. We inspected every corner of it and beg to reiterate our often expressed praise. In addition to doing what its name implies it teaches useful lessons to mothers as to the care of their infants. It is £2,210 in debt. Any curtailment of its work is unthinkable.

---

### THE COOMBE LYING-IN HOSPITAL.

This institution, at one time in many ways the most backward of those under our superintendence, is now in the first rank. It has still much to struggle with, but in spite of difficulties continues to do excellent work. It is £6,303 in debt. It is situated in the poorest locality in Dublin.

---

### THE MEATH HOSPITAL AND COUNTY DUBLIN INFIRMARY.

We made a thorough inspection of this hospital from garret to basement, and we were well pleased with the condition of everything we saw. Last year we expressed our agreement with the governors as to the inadvisability of closing beds, and we adhere to that opinion although there is an overdraft of £15,024. This institution, like the lying-in hospital just mentioned, is situated in the Coombe, and it is expected also to cater for the County of Dublin. It is true that it gets £600 from Government; which is not very much for the vast amount of work it does, work so pressing and beneficent that its medical and surgical staff, men in the very front of the profession, are satisfied at present to give their services gratuitously as in the case of other hospitals.

#### CORK STREET FEVER HOSPITAL.

We can report that it continues to fulfil in an eminent degree the purpose for which it was established, and to merit the esteem and support of the public. On inspection we found the wards well ventilated, bright and cheerful, the bedclothes clean, and systematic arrangements for their regular disinfection in force. The duties of the nursing staff were being performed with zeal and efficiency. In every department good management prevailed.

This hospital is £2,500 in debt. The cost of each occupied bed in it is about one-third of that of similar institutions in other cities. Every infectious case is admitted. It is a trench between the citizens and infectious diseases. It cannot be run cheaper. Beds cannot be closed.

---

#### ROYAL VICTORIA EYE AND EAR HOSPITAL.

At our inspection we found this hospital as usual in full and excellent working order. Any citizen who is prompted by a sense of duty to try and take an interest in hospitals cannot do better than make a beginning by paying a visit to this institution. He will come away saying "What splendid work is being done here!" For the work carried out lends itself to scientific demonstration, and much of it can be understood by anyone with a knowledge of physics. In the out-patient department, in which the patients treated during the year are numbered in thousands, he will see not only each patient being promptly attended to, but his condition so recorded that if he returns in after years any change that may have occurred can be accurately measured. In the wards he will see comfort, and efficiency combined in a rare degree, and if, in conclusion, he takes the trouble to ascertain at what cost this is done he will find that the economy of management is as distinguished as everything else in the establishment. The overdraft of this hospital is £6,508.

---

#### THE ROYAL HOSPITAL FOR INCURABLES.

When other hospitals have done all they can for patients this institution comes on the scene. For all despondent people we would prescribe a visit to the Hospital for Incurables. We have said something of this sort before, but it cannot be repeated too often. Joyousness in all weathers and under all circumstances is a leading and constant feature of the place. During our inspection we spoke to many of the patients and found that the mental attitude we have referred to was in no way assumed.

Here, certainly, science ministers to the body, and something higher to the spirit.

Our inspection showed us that the excellent management reported on in previous years tends, if anything, to gain in force. Nevertheless the Bank overdraft goes on increasing. In 1918 the balance was on the right side, now the Debit is £4,913 on foot of the General Account.

In summing up for the consideration of Your Excellency the results of our various inspections we do so by saying that all the hospitals reach fulfilment, excellently and economically, except the Lock Hospital, of which it may be said that it does as much as it can do in the present unformed state of public opinion on the difficult problem with which it has to deal. In addition, we have to add that all the hospitals are deeply in debt, and that a great deal of suffering goes unrelieved. In order that the Dublin hospitals might bestow on the civilian populace claiming attention at their hands, the complete treatment all soldiers most properly received during the last four years—and by complete we mean no case being sent away until all that could be done for it had been done—the funds at present at their disposal would have to be largely augmented, and we beg to add that if this were done it would probably be the most profitable expenditure of money ever made by any government. As things at present stand the maimed worker is dependent on charity unless he is content to go to a Union Hospital.

The preparation of this Report has been delayed owing to the printers' strike, and the death of the late Secretary, Surgeon Tobin, which took place on the 31st August last.

We have the honour to be,

Your Excellency's obedient faithful servants,

LAMBERT H. ORMSBY, Knt., Chairman

CHARLES E. LAMBKIN.

JOHN MAGEE FINNY, M.D.

JAMES INGLIS, J.P.

JOSEPH F. O'CARROLL, M.D., F.R.C.P.I.

AMBROSE KELLY.

ANNE M. McDONNELL.

MARGARET McNEILL.

JOHN DALLAS EDGE, Major-General.

WALTER CARSON, M.D., Colonel.

GEORGE ROCHE, Knt.

JOHN ROBERT O'CONNELL, Knt.

TREVOR N. SMITH, F.R.C.S.I., *Secretary.*

## APPENDIX.

TABLE No. 1.

A CLASSIFIED RETURN of the DISEASES of Patients treated in each of the Hospitals under the Superintendence of the Board; of the number of such Patients affected with, and of the number that died of, any particular Disease during the year ended 31st March, 1919.

## HARDWICKE AND AUXILIARY HOSPITALS.

NOTE—The Auxiliary Hospital is now used for Sick and Wounded Soldiers.

## HOUSE OF INDUSTRY GOVERNMENT HOSPITALS.

## HARDWICKE FEVER HOSPITAL.
